

Discover the high potential for savings that Connected Manufacturing offers!

Sample calculation:

4 machines, 1 pre-setting device

Assumption: 220 working days per year / 18.3 working days per month

Reduction of set-up time pre-setting device

- A saving of one minute per tool
- 20 tools per week, per machine: 80 tools
- € 30 labour costs per hour

€ 60 / month

Reduction of set-up time per machine

- A saving of 1.5 minutes per tool
- 20 tools per week, per machine
- € 30 labour costs per hour

€ 240 / month
€ 60 per machine

Savings tool costs per machine

- € 15,000 tool costs per year (approx. € 180 per day)
- 7.5% savings thanks to better use

€ 375 / month
€ 93.75 per machine

Savings due to error prevention per machine

- Statistically € 20,000 damages in five years (€ 4,000 damages per year) due to manual input of tool parameters / crash: damage to tool, workpiece, spindle
- 100% error prevention

€ 1333.32 / month
€ 333.33 per machine

Savings potential
€ 2,008.32 / month
€ 24,100 / year
